

PRELIMINARY LIST OF AFFECTED INSURERS AND POLICIES

The following is a preliminary list of policy wordings which match the 17 policy wordings within the scope of the test case. The list is not comprehensive: there are other insurers and many other policies in the market that we expect the test case to affect. In July, we expect to publish an updated, consolidated list of the disputed business interruption insurance policies that will be affected by the test case, based on firm submissions which will be collated by the FCA following the short consultation to this effect also published today.

Insurers	Policy wordings
