Source: FCA Appointed Representatives data

The charts (both here and in the data publication itself) are based on information provided by principal firms who responded to our 2021 data collection **and** self-reported as offering regulatory hosting services. The 2021 data request was sent to a large number of principals requesting information on their business and that of their ARs. It was not sent to all principal firms.

See our Consultation Paper

(<https://www.fca.org.uk/publication/consultation/cp21-34.pdf> - paragraph 5.16) for information on the 2021 data collection. The retail banking sector is not included in the analysis because we did not receive data from firms in this sector.
