| Tariff base | Annual eligible income |
| Validation date | Financial year ending in 2019 |

We need information from you to calculate your levies for the Financial Services Compensation Scheme (FSCS).

This guidance sheet provides details on the data to include within your fee tariff data submission. We have given links to relevant parts of the Handbook to help you complete the form correctly.

In 2016 the FCA commenced a review on the funding arrangements of FSCS and consulted on proposals for several policy changes. The changes included the introduction of new funding classes and categories, which became effective from 1 April 2019 and can be found in [FEES 6 annex 3A](#) of our handbook.

Your firm is allocated to FSCS class 1 category 1, general insurance distribution (GLGID-1), which replaced FSCS class SB02. The levy for this category continues to be based on annual eligible income and is the same definition as the data you previously reported, except that income for pure protection policies is now reported as general insurance instead of life insurance.

Please see [latest publications](#) about fees and levies on our website.
