**Annex A:**

Hi, this is a repeat of my request last year (ref FOI 6817), but in relation to data for the current year ended 31 March 2020.

In your recent Retirement income market data 2019/20 data release you included information on policies and flows, but did not have any update on the stock positions. You have previously disclosed this stock data in Data Bulletin: September 2018, Issue 14.

Could you please publish the aggregated Retirement Income Stock Data you collected in Part 1 (questions 4-16) of the REP016 retirement income market study data return, for the period March 2019 - March 2020?

It would be helpful if you could include this aggregated stock data in the underlying data spreadsheet in future annual retirement income data releases to help monitor scale and growth trends in the retirement income market.
