EU

Article 24 of the *PD Regulation* provides for how the contents of the *summary* are to be determined:

Content of the summary of the prospectus, of the base prospectus and of the individual issue

- 1 The issuer, the offeror or the person asking for the admission to trading on a regulated market shall determine the detailed content of the summary referred to in Article 5(2) of Directive 2003/71/EC in accordance with this Article.

A summary shall contain the key information items set out in Annex XXII. Where an item is not applicable to a prospectus, such item shall appear in the summary with the mention "not applicable". The length of the summary shall take into account the complexity of the issuer and of the securities offered, but shall not exceed 7% of the length of a prospectus or 15 pages, whichever is the longer. It shall not contain cross-references to other parts of the prospectus.

The order of the sections and of the elements of Annex XXII shall be mandatory. The summary shall be drafted in clear language, presenting the key information in an easily accessible and understandable way. Where an issuer is not under an obligation to include a summary in a prospectus pursuant to Article 5(2) of Directive 2003/71/EC, but produces an overview section in the prospectus, this section shall not be entitled "Summary" unless the issuer complies with all disclosure requirements for summaries laid down in this Article and Annex XXII.

- 2 The summary of the base prospectus may contain the following information:
 - (a) information included in the base prospectus;
 - (b) options for information required by the securities note schedule and its building block(s);
 - (c) information required by the securities note schedule and its building block(s) left in blank for later insertion in the final terms.

3 The summary of the individual issue shall provide the key information of the summary of the base prospectus combined with the relevant parts of the final terms. The summary of the individual issue shall contain the following:

- (a) the information of the summary of the base prospectus which is only relevant to the individual issue;**
- (b) the options contained in the base prospectus which are only relevant to the individual issue as determined in the final terms;**
- (c) the relevant information given in the final terms which has been previously left in blank in the base prospectus.**

Where the final terms relate to several securities which differ only in some very limited details, such as the issue price or maturity date, one single summary of the individual issue may be attached for all those securities, provided the information referring to the different securities is clearly segregated.

The summary of the individual issue shall be subject to the same requirements as the final terms and shall be annexed to them.

If the new information is integrated in the original summary of the base prospectus by producing a new summary, the issuer, the offeror or the person asking for admission to trading on a regulated market shall ensure that investors can easily identify the changes, in particular by way of footnotes.

2.2.11

FCA

The *PD Regulation* provides for categories of information to be included in the base *prospectus* and final terms.

Categories of information in the base prospectus and the final terms

- 2a 1 The categories set out in Annex XX shall determine the degree of flexibility by which the information can be given in the base prospectus or the final terms. The categories shall be defined as follows:
- (a) 'Category A' means the relevant information which shall be included in the base prospectus. This information cannot be left in blank for later insertion in the final terms;
- (b) 'Category B' means that the base prospectus shall include all the general principles related to the information required, and only the details which are unknown at the time of the

approval of the base prospectus can be left in blank for later insertion in the final terms;

- (c) 'Category C' means that the base prospectus may contain a reserved space for later insertion for the information which was not known at the time of the approval of the base prospectus. Such information shall be inserted in the final terms.**

- 2 Where the conditions of Article 16(1) of Directive 2003/71/EC apply, a supplement shall be required.**

Minimum information

2.3.1

FCA

Articles 3 to 23 of the *PD Regulation* provide for the minimum information to be included in a *prospectus*:

Note: the Annexes (including *schedules* and *building blocks*) referred to in these articles are set out for information in ■ PR App 3.

Article 3

Minimum information to be included in a prospectus

A prospectus shall be drawn up by using one or a combination of the schedules and building blocks set out in this Regulation.

A prospectus shall contain the information items required in Annexes I to XVII and Annexes XX to XXX depending on the type of issuer or issues and securities involved. Subject to Article 4a(1), a competent authority shall not require that a prospectus contains information items which are not included in Annexes I to XVII or Annexes XX to XXX.

In order to ensure conformity with the obligation referred to in Article 5(1) of Directive 2003/71/EC, the competent authority of the home Member State, when approving a prospectus in accordance with Article 13 of that Directive, may, on a case by case basis, require the information provided by the issuer, the offeror or the person asking for admission to trading on a regulated market to be completed, for each of the information items.

Where the issuer, the offeror or the person asking for the admission to trading on a regulated market is required to include a summary in a prospectus, in accordance with Article 5(2) of Directive 2003/71/EC, the competent authority of the home Member State, when approving the prospectus in accordance with Article 13 of that Directive, may, on a case by case basis, require certain information provided in the prospectus, to be included in the summary.

2. The schedule set out in paragraph 1 shall apply to the following:

 - (2) other securities which comply with the following conditions:
 - (a) they can be converted or exchanged into shares or other transferable securities equivalent to shares, at the issuer's or at the investor's discretion, or on the basis of the conditions established at the moment of the issue, or give, in any other way, the possibility to acquire shares or other transferable securities equivalent to shares, and
 - (b) provided that these shares or other transferable securities equivalent to shares are or will be issued by the issuer of the security and are not yet traded on a regulated market or an equivalent market outside the Community at the time of the approval of the prospectus covering the securities, and that the underlying shares or other transferable securities equivalent to shares can be delivered with physical settlement.

Article 4a

Share registration document schedule in cases of complex financial history or significant financial commitment

1. Where the issuer of a security covered by Article 4(2) has a complex financial history, or has made a significant financial commitment, and in consequence the inclusion in the registration document of certain items of financial information relating to an entity other than the issuer is necessary in order to satisfy the obligation laid down in Article 5(1) of Directive 2003/71/EC, those items of financial information shall be deemed to relate to the issuer. The competent authority of the home Member State shall in such cases request that the issuer, the offeror or the person asking for admission to trading include those items of information in the registration document.

Those items of financial information may include pro forma information prepared in accordance with Annex II. In this context, where the issuer has made a significant financial commitment any such pro forma information shall illustrate the anticipated effects of the transaction that the issuer has agreed to undertake, and references in Annex II to "the transaction" shall be read accordingly.

2. The competent authority shall base any request pursuant to the first subparagraph of paragraph 1 on the requirements set out in item 20.1 of Annex I, item 15.1 of Annex XXIII, item 20.1 of Annex XXV, item 11.1 of Annex XXVII and item 20.1 of Annex XXVIII as regards the content of financial information and the applicable accounting and auditing principles, subject to any modification which is appropriate in view of any of the following factors:

- (a) the nature of the securities;**
- (b) the nature and range of information already included in the prospectus, and the existence of financial information relating to an entity other than the issuer in a form that might be included in a prospectus without modification;**
- (c) the facts of the case, including the economic substance of the transactions by which the issuer has acquired or disposed of its business undertaking or any part of it, and the specific nature of that undertaking;**
- (d) the ability of the issuer to obtain financial information relating to another entity with reasonable effort.**

Where, in the individual case, the obligation laid down in Article 5(1) of Directive 2003/71/EC may be satisfied in more than one way, preference shall be given to the way that is the least costly or onerous.

(3) Paragraph 1 is without prejudice to the responsibility under national law of any other person, including the persons referred to in Article 6(1) of Directive 2003/71/EC, for the information contained in the prospectus. In particular, those persons shall be responsible for the inclusion in the registration document of any items of information requested by the competent authority pursuant to paragraph 1.

(4) For the purposes of paragraph 1, an issuer shall be treated as having a complex financial history if all of the following conditions apply:

- (a) its entire business undertaking at the time that the prospectus is drawn up is not accurately represented in the historical financial information which it is required to provide under item 20.1 of Annex I, item 15.1 of Annex XXIII, item 20.1 of Annex XXV, item 11.1 of Annex XXVII and item 20.1 of Annex XXVIII;**
- (b) that inaccuracy will affect the ability of an investor to make an informed assessment as mentioned in Article 5(1) of Directive 2003/71/EC; and**
- (c) information relating to its business undertaking that is necessary for an investor to make such an assessment is**

included in financial information relating to another entity.

- (5) For the purposes of paragraph 1, an issuer shall be treated as having made a significant financial commitment if it has entered into a binding agreement to undertake a transaction which, on completion, is likely to give rise to a significant gross change.

In this context, the fact that an agreement makes completion of the transaction subject to conditions, including approval by a regulatory authority, shall not prevent that agreement from being treated as binding if it is reasonably certain that those conditions will be fulfilled.

In particular, an agreement shall be treated as binding where it makes the completion of the transaction conditional on the outcome of the offer of the securities that are the subject matter of the prospectus or, in the case of a proposed takeover, if the offer of securities that are the subject matter of the prospectus has the objective of funding that takeover.

- (6) For the purposes of paragraph 5 of this Article, and of item 20.2 of Annex I, item 15.2 of Annex XXIII and item 20.2 of Annex XXV, a significant gross change means a variation of more than 25%, relative to one or more indicators of the size of the issuer's business, in the situation of an issuer.

Recital 9

Pro forma financial information is needed in case of significant gross change, i. e. a variation of more than 25% relative to one or more indicators of the size of the issuer's business, in the situation of an issuer due to a particular transaction, with the exception of those situations where merger accounting is required.

person asking for admission to trading on a regulated market to be completed for each of the information items.

Where the issuer, the offeror or the person asking for the admission to trading on a regulated market is required to include a summary in a base prospectus, in accordance with Article 5(2) of Directive 2003/71/EC, the competent authority of the home Member State, when approving the base prospectus in accordance with Article 13 of that Directive, may, on a case-by-case basis, require certain information provided in the base prospectus to be included in the summary.

3. The use of the combinations provided for in the table in Annex XVIII shall be mandatory when drawing up base prospectuses for the types of securities to which those combinations correspond according to this table. However, for securities not covered by those combinations further combinations may be used.
4. The final terms attached to a base prospectus shall only contain the following:

The final terms shall not amend or replace any information in the base prospectus.

 - (2) the method of publication of the final terms; if the issuer is not in a position to determine, at the time of the approval of the prospectus, the method of publication of the final terms, an indication of how the public will be informed about which method will be used for the publication of the final terms;

 - (4) all other non-equity securities including warrants with the exception of those mentioned in point (2).

In drawing up a base prospectus the issuer, the offeror or the person asking for admission to trading on a regulated market shall clearly segregate the specific information on each of the different securities included in these categories.

7. Where an event envisaged under [section 87G(1) of the *Act* (Supplementary prospectus)] occurs between the time that the base prospectus has been approved and the final closing of the offer of each issue of securities under the base prospectus or, as the case may be, the time that trading on a regulated market of those securities begins, the issuer, the offeror or the person asking for admission to trading on a regulated market shall publish a supplement prior to the final closing of the offer or the admission of those securities to trading.

Where the issuer needs to prepare a supplement concerning information in the base prospectus that relates to only one or several specific issues, the right of investors to withdraw their acceptances pursuant to Article 16(2) of Directive 2003/71/EC shall only apply to the relevant issues and not to any other issues of securities under the base prospectus.

This addition shall be done in accordance with the main characteristics of the securities being offered to the public or admitted to trading on a regulated market.
3. The [FCA] shall forthwith inform the Commission thereof.

The derogation referred to in the first subparagraph shall only apply in case of a new type of security which has features completely different from the various types of securities mentioned in Annex XVIII, if the characteristics of this new security are such that a combination of the different information items referred to in the schedules and building blocks provided for in Articles 4 to 20 is not pertinent.
