# Overview

The National Storage Mechanism (NSM) is an online storage facility for regulated information required to be disclosed under the UK Listing Rules (UKLR), Disclosure Guidance and Transparency Rules (DTRs), Market Abuse Regulation (MAR) and Prospectus Rules: Admission to Trading on a Regulated Market (PRM). Listed issuers should upload documents such as annual reports and circulars ('regulated information') in order for that information to be displayed on the NSM.

All submitters to the NSM are required to register for an Electronic Submission System (ESS) account and provide evidence they are authorised to file regulated information on behalf of the issuers they represent.

This user guide aims to provide submitters with a step-by-step guide to uploading information to the NSM.

For step-by-step guide for searching on the NSM for regulated information, please refer to [NSM User Guide](#)

V13.0 updates:

- Minor updates to screen shots and wording for the implementation of Prospectus Rules: Admission to Trading on a Regulated Market (PRM)

V12.0 updates:

- New functionality to add related issuers
- New functionality to submit corrections
- Updated screen shots

V11.0 updates:

- Fixed broken links

The LEI is a 20-character, unique alpha-numeric code.

You can search for an issuer's LEI on the Global Legal Identifier Foundation (GLEIF) website: <https://search.gleif.org/>

The search feature will only match the beginning of a word and does not allow for multiple word searches. For example, entering 'Lasa', 'Lasaco', 'Assu', 'Assura', 'Assurance', 'Pl', 'Plc' will return 'Lasaco Assurance Plc' but entering 'Assurance Plc' will not.

Next, in the **Authorisation Form** section, upload the authorisation letter and click **Save**.

You will need to submit a separate authorisation case for each issuer you want to be able to upload for.

## Important - Naming convention for Structured Annual Financial Reports

The FCA requires issuers to adopt a specific naming convention for the uploaded file or package. It needs to be in the format {LEI}-{date}.zip or .html or .xhtml or .xbri, whereby:

- The {LEI} component of the filename should be the 20-character LEI of the issuer
- The {date} component of the filename should indicate the accounting reference date / balance sheet year-end date. The {date} component should follow the YYYY-MM-DD format.

For example -

213800YWQOYL4VQODV50-2020-08-01.html or

213800YWQOYL4VQODV50-2020-08-01.xhtml or

213800YWQOYL4VQODV50-2020-08-01.zip or

213800YWQOYL4VQODV50-2020-08-01.xbri

depending on whether the submission is tagged or untagged.

Please consult our [Technical Guidelines for the Preparation and Submission of Structured Annual Financial Reports to the FCA](#)

You will receive confirmation that the document has been saved successfully.

**Step 10:** In the case document section, please complete the following mandatory fields: **Description**, **Accounting Reference Date** and **Publication Date**. Please note that the publication date is when the structured AFR was published (rather than the date when a PDF version was published). If this is the first time the structured AFR has been published, or it is a test case, please enter the current date/time.

Annual financial reports in electronic format submitted to the NSM will be subject to additional validation checks after submission. If validation is passed, the submission will be accepted and made publicly available.

If there are only minor issues, the submission will be accepted and filed. However, these issues (referred to as "warnings"), should be investigated by issuers and their advisors. If you have investigated a warning and concluded there is no underlying issue to address, no further action is required.

If errors are identified, the submission will be rejected and will not be filed on the NSM. Once the errors are corrected, the submitter will need to resubmit a new case by following **steps 1 to 14**.

Please note that if you select Test submission and the submission passes the validations, you will still need to create another ESS AFR case to submit the package to the NSM. It is not possible to use the test case again for publication.

## Accessing warnings and errors

If your submission has errors and/or warnings, the submitter will be notified via email with a link to these errors and/or warnings. This link is also accessible via the ESS portal.

In addition to errors and/or warnings, you may also receive "information" messages. These messages are just to inform you of any validation checks which have not been performed by our system. No action is required on these.
