

Transcript – Female employees discuss their experiences as females working in Technology at the FCA

How does the FCA support you to succeed?

Randa Mohamed, Summer Intern – Technology and Change: Two of the most senior roles in Change are held by women. So, in terms of being a woman and working in Technology at the FCA, they really work with you to progress your career and encourage women to take up key roles.

Isobel Seabrook, Data Analyst – Data Science team: We've hosted a 'Women in Tech' event earlier this year where we presented the work that we're doing, attended network groups, and they're a really good opportunity to meet other women in the industry.

Secure a smarter future.
