

Transcript – FCA explains: how to register for Connect.

Connect is our online system for submitting applications and notifications.

Did you know...

Once you become authorized, you must re-register for Connect. (Except consumer credit firms authorized after January 2019.)

Being registered on Connect allows you to make changes to your firm's details like:

- updating your address
- changing approved persons

To register for Connect, go to: fca.org.uk/firms/connect/registration

Click on 'register for access' under 'authorised or registered firms'.

Sole traders

If you are a sole trader you will have been given a 'registration key' in your welcome email. You can use this to register.

Limited company

If you are a limited company, register using the Individual Reference Number (IRN) and some personal details of an approved person in your firm.

The IRN can be found on the FS Register at: register.fca.org.uk

Once you are registered, you can then make changes to your firm's details.
