

User guide: Adding Directory Persons data for multiple individuals

This user guide helps firms to submit new Directory Persons data in bulk we suggest firms use the multiple add functionality if submitting data for 10 or more Persons.

Directory Persons information is published on the [Financial Services Register \(FS Register\)](#), a public register showing details of key people working in financial services.

Directory Persons consist of:

- all Certified staff (those holding a certification function under the Senior Managers and Certification Regime (SM&CR))
- directors who are not performing Senior Manager Functions (SMFs) – both executive and non-executive
- other individuals who are sole traders or ARs (including those within ARs) where they are undertaking business with clients and require a qualification to do so

Directory Persons information to be published on the FS Register includes:

- name and any previous names
- roles with start and end dates
- activities undertaken

For customer-facing roles requiring qualification:

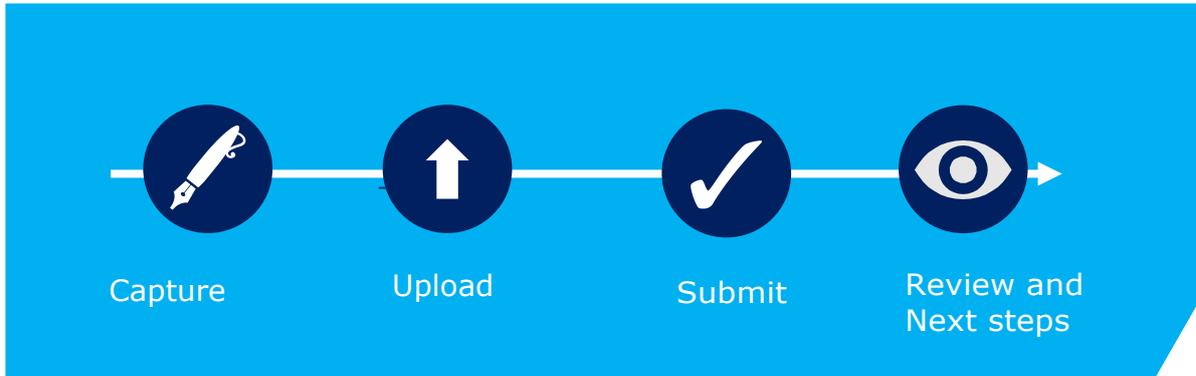

- customer engagement methods
- workplace location (where relevant)
- Memberships of professional bodies

3. Using the Multiple Add template

The Multiple add template allows you to submit multiple Directory Person records in a single application. You can use the multiple add template to:

- add new Directory Persons
- add new roles
- add new activities
- add new accreditations
- add new workplace location
- add new customer engagement method

The template you need to complete looks like the *illustration below*.

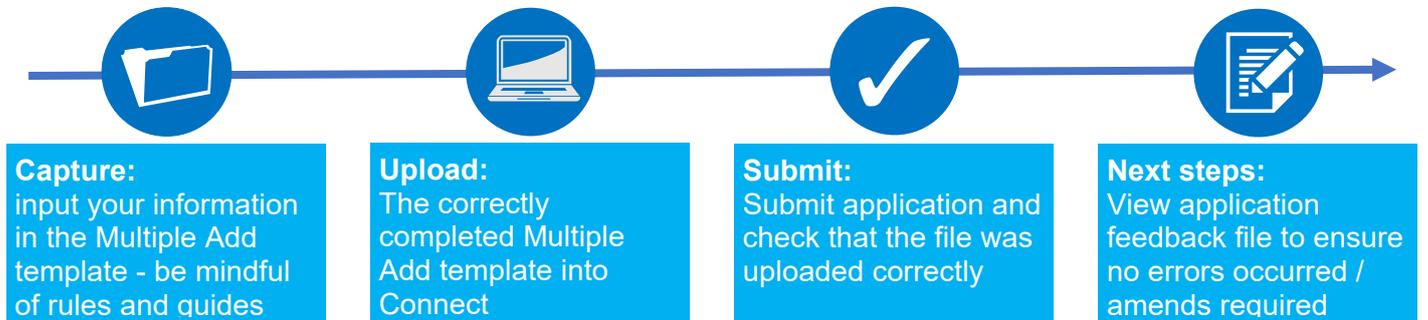

FCA FINANCIAL CONDUCT AUTHORITY									
Personal details									
FRN	IRN	Title	First name(s)	Last name	Commonly used names	Date of birth	National Insurance number	Passport number	Nationality
123456	XXX00000	Mrs	Monica	Riaz		#####	AB123456CC	12345678900	

Each row represents a single Directory Person's entry (individual) for a single legal entity.

If an individual works for multiple legal entities, please submit a separate application for each entity

Multiple add process includes:

Capture:
input your information in the Multiple Add template - be mindful of rules and guides

Upload:
The correctly completed Multiple Add template into Connect

Submit:
Submit application and check that the file was uploaded correctly

Next steps:
View application feedback file to ensure no errors occurred / amends required

4. Capture

What do you need to do?

- Complete the required fields on the template.
- Be aware of the required format for each field.
- Be aware of the [rules relating to roles, activities, customer engagement methods and workplace location](#).

Important information you need to know when completing the template

- The header cell of each column contains help text (if needed). Hover over the header cells to display the text.
- Do not remove or edit the top 3 rows.
- Do not add formatting to the spreadsheet (e.g. cell borders) as this may corrupt the file when it is saved to .csv.
- Some cells contain validations. Do not change them or your submission is likely to fail.
- Do not use commas as they will cause your submission to fail.
- Do not leave blank rows. For example, do not fill in row 10 and 12 but leave row 11 blank. If you do any data after row 10 will not be processed.

Hints & Tips:

Where an individual has had a gap in service:

1. First submit the historical role using single add or multiple add.
2. Check the Application feedback file to confirm that the historical role submission has been processed
3. Then add the current role.

Warning! If you submit current role first and then historical message later, you will get an error message

Use the formats and rules in the following table when completing the template. Please follow these carefully – if there are errors your file will not be processed.

- Activities the Directory Person carries out.
- Customer engagement method(s).
- Workplace location(s).
- The accredited body of which the Directory Person is a member.

Saving your file:

Note: To ensure your file is processed promptly, please don't exceed a file size of 5MB (megabytes). The number of rows you can populate will depend on how many columns are used. For example:

- 100% (96) columns populated = approx. 1500 rows
- 50% (48) columns populated = approx. 2000 rows
- 25% (24) of columns populated = approx. 2500 rows

If you need to submit more information than this, you can do so by submitting another application and uploading a file with the remaining information.

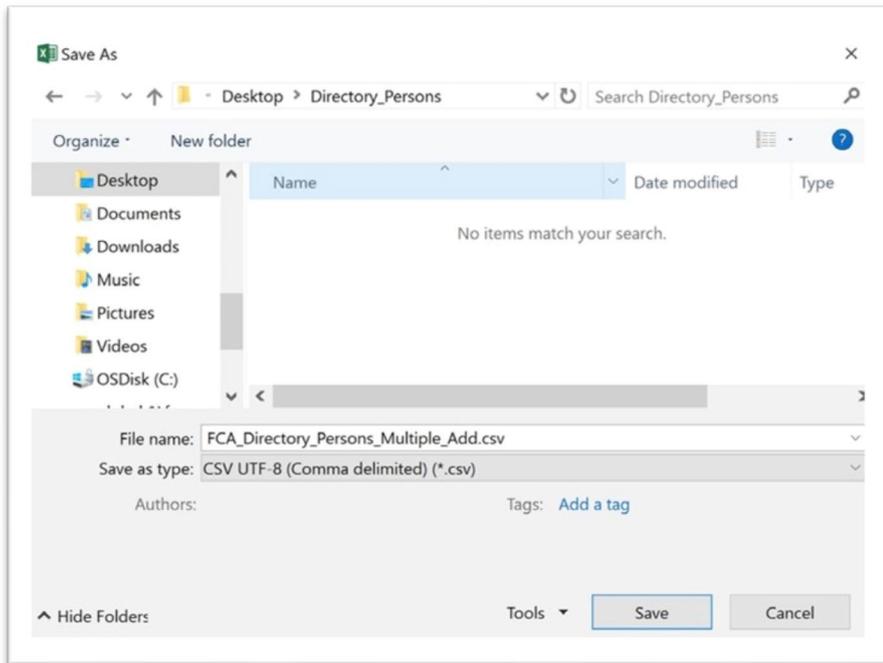

When you have completed the template with all the information in appropriate fields, save the file in the CSV UTF-8 format (comma separated values), and **not** as .xls (Excel spreadsheet). Do not save it as a CSV UTF-8 until you are ready to submit, as doing so will remove the template formatting.

When saving the file, ensure you are on the form that contains the information you have populated, as the CSV UTF-8 format removes all other tabs.

The name of your file should be: 'FCA_Directory_Persons_Multiple_Add.csv' and saved on a local drive. Do not use any spaces or special characters in the file name.

When you have saved the file, you are ready to upload to Connect

- We now have your file and you can log out. We will email you further information about processing your data.

7. Review and Next steps

When you have uploaded and submitted the Multiple Add template, we will perform several checks on the data to ensure it is ready to publish on the FS Register.

Upon receipt of your Bulk Add Directory submission, we will check your data and process your application. We will then create a feedback file (Feedback.csv) in Connect, which details the outcome for each individual submitted.

You will receive a standard email asking you to check your feedback file on Connect. All firms will receive this email and a feedback file regardless of whether there are errors in their submission. You can find the feedback file in the 'Directory Person Detail' section of the submitted application.

Access your feedback file from the Directory Person detail section: The path is as follows, select - >Application Reference Number -> View Application -> Directory Person Details -> feedback.csv.

View the status of each individual in the feedback file. This allows you to easily check which individuals have been processed successfully, and which must be resubmitted.

The feedback file contains:

- A list of all the individuals submitted as part of the bulk notification, not only those with errors.
- Details of which individuals have been processed as part of the submission, along with the IRNs for any new individuals.
- If an individual has failed, there will be an error message explaining the error in the relevant row. If the individual row has been processed without error, there will be no details in the error column.
- A new 'IRN Status' column that will indicate whether it's a new individual (previously unknown to FCA) with the value 'New Individual' populated, or it's an existing individual with the value 'Existing Individual' populated.
- If we cannot process your data due to an incorrect file format, incorrect template or the template being modified you will receive a single piece of feedback on the whole submission. For example, 'Columns missing or file is corrupted. Please do not modify the csv file once converted from xlsx'.

If there are no errors in the data, we aim to publish the information within 24 hours. From later this year for banks and insurers and from end of December 2020 for all other firms.

NOTE: Before 7 September 2020, we sent 2 emails when we processed a Bulk Add Directory Submission: one to confirm the processing status of the application, and another listing the successfully processed IRNs. Our new process aims to simplify the way you receive feedback.

Understanding the feedback file

Individual Status column	Error column	Description of the scenario
New Individual		Record has been successfully processed and new individual created
Existing Individual		Record has been successfully processed and existing individual record has been updated
Existing Individual	Populated with error message	An existing record has been identified for the individual, but it has not been processed. Submit a new application after correcting the error message.
	Populated with error message	No existing record has been identified (except when there is a Personally Identifiable Information mismatch error) and the record has not been processed. Submit a new application after correcting the error message.
