

# Service Standards

## April 2014

---

Service standards are specified levels of performance that we aim to meet when performing our regulatory functions. These include voluntary and statutory commitments in the Financial Services and Markets Act 2000 (FSMA) or other legislation.

The service standards portfolio provides information about key areas of our service, how we are performing and how firms and consumers assess the levels of satisfaction with our service. The standards apply to a range of our services – including how we deal with telephone enquiries, correspondence and applications.

In the interests of our stakeholders it is vital that we make the right regulatory decisions and sometimes this will mean that transactions may take longer than our target timescales. Given a choice between meeting a standard and taking more time to make the right decision, we will take more time.

As a new organisation we have revised our service standards in line with our commitment to transparency – we now have 54.

# 1. Authorisations

## Service Standard [A1.1]

### To process a complete application for Part 4A permission

In the UK financial services industry, all activities classed as regulated activities are covered by the 'general prohibition'. This means that no individual or firm can carry on these activities lawfully without being authorised to do so or exempt from the general prohibition under section 19 of the Financial Services and Markets Act 2000 (FSMA).

If an individual or firm is not exempt under FSMA, they/it must apply to us for a 'Part 4A permission' to carry out any regulated activities. Our Handbook sets out the instances in which permission is required, and how an individual or firm should apply for that permission.

A complete application is one where an individual or firm has answered all the questions in the relevant application pack and supplied all the information and documents required.

An incomplete application is one that does not have all the relevant documents and information required. This will only be treated as a complete application once all the required information has been received.

### To process Money Laundering registrations

Provisions in relation to a person who is an Annex 1 financial institution for the purposes of the Money Laundering Regulations 2007:

We must, within 45 days beginning either with the date on which we receive a registration application from an Annex 1 financial institution or, where the application is incomplete, with the date on which we receive any further information, give the applicant notice of:

1. our decision to register the applicant, or
2. that we are considering not registering the applicant, the reason for this and the right the applicant has to make representations to us within a specified period (which may not be less than 28 days).

## 2. Communications

### Service Standard [CM1.1]

**To provide a substantive response to letters, emails or faxes we receive via our Customer Contact Centre (Firms), Lead Supervisors, Market Transaction Monitoring Unit or relating to certain types of questions about our fees**

This standard aims to provide prompt answers to questions from firms or entities that we regulate. The standard applies to correspondence that:

requires a response;

- is addressed to our Customer Contact Centre (Firms), our Market Transaction Monitoring Unit or one of our lead supervisors; and
- is from a regulated firm or entity or from its professional adviser where the firm/entity name is given.

In relation to questions about fees, the standard applies to correspondence which:

- requires a response; and is either addressed to our revenue team or is clearly marked as a revenue query; or
- is addressed to our Electronic Customer Relationship Management system (eCRM) team or is clearly marked as an eCRM query.

The eCRM system gives us a means of communicating with authorised firms and other key external stakeholders via bulk email. We can target these communications at specific groups of firms such as financial advisers or banks, thereby maximising the effectiveness of the communications.

If we cannot give a substantive response within the target timescale then we will aim to notify you.

This service standard does not include correspondence that is subject to statutory service standards, such as requests for information under the Data Protection Act 1998, The Freedom of Information Act 2000 and the Environmental Information Regulations 2004.

We aim to provide firms with a draft letter and Risk Mitigation Programme (RMP) of our findings and recommendations, following a firm evaluation meeting, prior to the end of the firm's regulatory cycle. The regularity of the letter will depend upon the firm's regulatory cycle, which differs according to the firm impact categorisation.

### To provide a substantive response to correspondence received by the Customer Contact Centres (Consumers)

We understand that our consumers contact us with important queries that require urgent attention and we aim to provide a prompt and high-quality service. We consider a substantive response one which is conclusive. Where we are unable to provide this within our target timescale we will keep you updated with our progress.

Occasionally we receive requests for information which fall under the Data Protection Act 1998, The Freedom of Information Act 2000 or the Environmental Information Regulations 2004. These requests have their own regulatory timescales.

### The telephone call abandonment rate for calls made directly to the Customer Contact Centre (consumers)

Our contact centre represents the main point of contact for many of our consumers. So it is important that we are available to provide information when it is needed.

We class a telephone call as abandoned when a consumer ends the call before we answer it. This will happen if there are no advisers available to answer the call and the consumer decides to end the call rather than wait. We strive to predict our busiest times to make sure we have the right level of associates available and this is a measure of how well we do this.

Calls made to the automated Leafletline, those which are directed via the switchboard and direct calls to other people in the organisation are not subject to this standard.

### To process simple oral queries relating to the Code of Market Conduct

Our Code of Market Conduct is designed as guidance for the industry about what we consider constitutes market abuse, what we consider does not constitute market abuse, and the factors we consider in making such decisions.

While the Code does provide guidance, it is not designed as a comprehensive list. Because of this, there may be occasions when firms want us to clarify our position on certain activities, and it is these queries to which this standard refers.

We will inform you that your query has been defined as 'simple' at our first point of contact.

**To ensure availability of customer facing Information Services (IS) systems, encompassing the following systems**

- GABRIEL (GAthering Better Regulatory Information ELectronically) submission system

### **To ensure availability of the GABRIEL system**

GABRIEL (GAthering Better Regulatory Information ELectronically) is our new regulatory reporting system for collecting, validating and storing regulatory data. The availability of the system is currently measured Monday to Friday, 8am to 10pm and Saturday to Sunday, 8am to 5pm (UK Time), except during planned system maintenance.

- Electronic Submission System (ELS)

### **To ensure availability of the ELS**

The ELS allows companies' advisers to send draft shareholder documentation to the UK Listing Authority in secure electronic form for review ahead of publication. Once a firm has registered and received their login details they will be able to access the system. The availability of the system is currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

- FCA Register system

### **To ensure availability of the FCA Register system**

The FCA Register is a public record of financial services firms, individuals and other bodies which fall or have come under its regulatory jurisdiction as defined in FSMA.

The availability of the system is currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

- FCA Website

### **To ensure availability of the FCA website**

Our website is targeted towards consumers and authorised firms and delivers information crucial to the regulation of the financial services within the UK. While we aim to make this system available 24 hours each day, its availability is currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

- Comparative Tables system

### **To ensure availability of the Comparative Tables system**

The 'Compare products' part of our website provides impartial comparison tables to help consumers shop around for mortgages, savings accounts, annuities and a range of other financial products. We update the tables every day. The availability of the system is currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

- Fee Calculator system

### **To ensure availability of the Fee Calculator system**

The Fee Calculator enables firms to estimate their FCA fees, FSCS levy and FOS general levy for different financial periods and scenarios (either the consulted rates or the final rates for that period). The availability of the system is

currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

- Online Notifications & Applications (ONA) submission system

### To ensure availability of the ONA system

ONA is our new regulatory transactions system for the submission and processing of applications and notifications. The availability of the system is currently measured Monday to Friday, 7am to 8pm (UK Time), except during planned system maintenance.

## 3. Complaints against the FCA

The Complaints Scheme was set up in April 2013 in accordance with the requirements of the Financial Services Act 2012 (The Act), which requires the FCA (as well as the other regulators covered by the Scheme) to have arrangements in place to investigate complaints made in connection with its alleged actions/inactions under The Act. The following standards relate to the time we take to respond to and deal with complaints received.

### **Service Standard [C1.2] - 97.5% within five working days of receipt**

**To acknowledge a complaint within five working days of its receipt and send a leaflet explaining how the Complaints Scheme works and the right to ask for a Stage Two investigation**

### **Service Standard [C1.3] - 97.5% within 20 working days of receipt**

**To notify the complainant if the complaint will not be admitted to the Scheme at Stage One**

Within 20 working days of receiving a complaint, we will write to complainants to notify them whether or not we shall investigate their complaint under the scheme. Where appropriate we will explain our reasons for not investigating a complaint.

### **Service Standard [C1.4] - 97.5% within 20 working days of receipt**

**To complete a Stage One Investigation and write to the complainant with results of the complaint or write to the complainant to set out a reasonable timescale within which the FCA plans to deal with the complaint**

Within 20 working days of receiving a complaint, we will write to all complainants whose complaint has been admitted to the scheme to:

- advise whether we have been able to complete a Stage One investigation, and if so make our substantive response; or
- set out a reasonable timescale within which we plan to deal with their complaint.

To ensure an accurate response, we may ask for further information and/or clarification in writing from complainants, and we may not be able to progress our investigation until we receive this information.

We aim to resolve all complaints as soon as possible and will write to complainants regularly to keep them informed of the progress of their complaints.

**To comment on the initial proof of a document submitted for pre-vetting by a new applicant or by an unlisted issuer that is undertaking a public offer<sup>1</sup> and is preparing a prospectus for the first time**

Prospectuses<sup>2</sup> require prior approval by the UKLA before being used to undertake a public offer or in connection with an IPO. A draft prospectus must be submitted in substantially complete form to the FCA's UKLA Department for vetting. We will then aim to comment on the initial submissions of this type of document within ten clear working days.

**To provide a substantive reply to complaints within five working days or acknowledged within two days and replied to within 15 working days**

We try to respond to complaints quickly and in a helpful manner although the freedom with which we can reply to a complaint is often limited by our duties and obligations regarding the confidentiality of the information we hold. Also, complaints can sometimes be unclear, they may be complex and on close scrutiny in fact often partially or fully relate to the responsibilities of regulatory bodies other than the FCA.

**To provide a substantive reply to other queries received in writing or request for further substantive information**

In undertaking our work we are called upon to give guidance on the application of the rules. We will provide a response to a reasonable request for guidance that is made by or on behalf of the named party upon whom the requirement to comply with the applicable rule falls. We will aim to provide either a substantive reply or a request for further substantive information within five working days.

- Compliance with the standards under L1 will not be affected where, in exceptional circumstances, the person submitting the document specifically agrees that a longer period is more appropriate.
- For the purposes of L1.3, the UKLA reserves the right to treat further drafts that have been substantially redrafted or resubmitted only after long delays as initial submissions for timing purposes. In such cases the issuer or its adviser will be informed as soon as practicable after the draft is submitted.
- The periods referred to in items L1, L2, and L3 are clear business days and do not include the day of receipt by the UKLA.
- For initial submissions the day of receipt ends at 4pm, documents received after this point will be counted as being received on the following day.
- Delays resulting from failure to comply with UKLA processes such as one (or more) of the following:
  - A document vetting fee is outstanding; or
  - Significant eligibility concerns have not been addressed; or
  - A document draft submitted is substantially incomplete

will not affect compliance with the standards in L1 above.

## 5. Notifications

### Service Standard [N1.1]

#### To process a complete notification for Appointed Representative status

An appointed representative is a firm or an individual that an authorised person (a Principal) has appointed under a contract to carry on certain regulated activities on its behalf. The Principal is responsible for the appointed representative complying with the Financial Services and Markets Act 2000, and our rules.

Since the Principal is already authorised, and has agreed to accept responsibility for the appointed representative's activities, the appointed representative does not need to be authorised by us. This means that we can process notifications by a Principal of its appointed representatives relatively quickly.

#### To process a complete 'post-event notification' to change the FCA's static data on a regulated firm

Static data is the basic information we hold on the firms that we regulate; this includes information such as names, addresses, and contacts within firms.

It is important that static data is kept up to date because it is used not only throughout the FCA, but also by the Financial Ombudsman Service (FOS), the Financial Services Compensation Scheme (FSCS) and by users of the FCA Register.

Regulated firms must inform us of a change to their static data. A 'post-event notification' is where a firm informs us after it has changed its static data.

Mutual Societies have a separate process for changes to firm name and registered office address data, and this is covered by standard A8.1.

### To process a complete application for authorisation under the Payment Services Regulations 2009

Under the Payment Services Regulations 2009 (the PSRs) a UK firm that provides payment services (as defined in the PSRs) by way of business in the UK, needs to apply to us to become either an 'authorised' payment institution or 'registered' as a small payment institution unless it is already another type of payment service provider or is exempt.

Anyone wishing to become an authorised payment institution needs to complete and submit to us an application form, along with the required information and the appropriate application fee.

Supplying the information requested on the application form will not necessarily be enough for the application to be 'complete'. It is often necessary for us to ask additional questions to clarify or expand on the answers already given, and for additional documentation to be requested. An application is complete only when we have received all the information and evidence needed for us to make a decision.

#### To process an application for Approved Person status

A firm applying to carry on regulated activities must also apply under Part IV Financial Services and Markets Act 2000 (FSMA) for approval of one or more individuals to perform the controlled functions on its behalf once authorised ('its approved person(s)'). The FS Handbook contains a list of all the controlled functions approved persons might perform.

Once authorised, the firm may decide to apply for approval to replace and/or add to its approved person(s).

We must be satisfied that approved persons are fit and proper, meaning that they have the integrity, ability and financial soundness to perform their role and to comply with the code of conduct set out in the FS Handbook.

**To consider notice of a proposed alteration to a Collective Investment Scheme and, if appropriate, issue a warning notice**

We must be informed in writing of any proposed changes to a trust, its trustee, or its manager (under Section 251 of FSMA). We need to be satisfied that any changes will not adversely affect a trust's compliance with our requirements.

Overseas collective investment schemes which are not UCITS (Undertakings for Collective Investments in Transferable Securities) or schemes authorised in designated territories that may be recognised under section 270 of FSMA may be recognised as individual schemes under section 272 of FSMA. To become recognised as an individual scheme, the scheme must satisfy the requirements set out in section 272. So, it must inform us in writing of any proposed changes to an individually recognised overseas scheme (under Section 277 of FSMA).

We must be informed in writing of any proposed changes to certain features of an authorised OEIC (under Regulation 21 of the Open-Ended Investment Companies Regulations 2001). We need to be satisfied that any changes will not adversely affect the OEIC's compliance with our requirements.

Our standard practice is to acknowledge and give written approval wherever feasible. However, if we do not, then the proposal (under Section 251 and 277 of FSMA and Regulation 21 of the OEIC Regulations) gets automatic approval one month from the date we received notice of it.

**To process a complete application from an authorised firm for Variation of Permission**

When firms apply to us for authorisation, they set out in detail the regulated activities they wish to carry on, and receive a 'Part 4A permission'. Firms may subsequently change the nature of their business and apply to add or remove any regulated activities, investment or customer types. They may also apply to add a requirement and/ or limitation to, or remove a requirement and/ or limitation from, the scope of their Part 4A permission.

All of these applications are known as applications for Variation of Permission.

**To make a decision following receipt of a 'valid' notification to approve a change in control:**

A 'controller' here refers broadly to a person who holds shares in or is entitled to exercise, or control the exercise of, voting power or significant influence in a UK-authorised firm or a parent of a UK-authorised firm. Controllers and firms must notify us before acquiring or increasing control (in line with Part XII of FSMA).

We must be notified when a proposed controller acquires shares or voting power in a directive firm that takes its control to 10% or more, or when a controller increases its shareholding levels to 20% or more, 30% or more and to 50% or more, or if it becomes a parent undertaking (non directive firms are subject to only one controller band of 20% or more), or as a result of the holding of shares or voting power the proposed controller will be able to exercise significant influence over the management of the firm.

Once we receive notice of this, we will decide whether to approve the change or issue a warning notice.

### To determine a complete application for Cancellation of Part 4A permission

An authorised person with Part 4A permission can apply to us for all of their permissions to be cancelled. Changes to individual permissions would involve a Variation of Permission instead. The cancellation of all permissions means that the firm would no longer be permitted to carry on any regulated activities in the UK.

We may refuse an application for cancellation if it appears to be detrimental to the interests of consumers or potential consumers. This may be the case, for example, where a firm has outstanding complaints against it from a customer.

### To process a notification of changes by an FCA-authorised firm already carrying out business in another EEA member state, under 'freedom of establishment', within the timeframe set by the relevant directive

A firm which is FCA-authorised to carry on regulated activities in the UK also has the right, under the Single Market Directives, to carry on business in any other EEA member state.

If a UK firm has an establishment in another EEA member state and wishes to change the previously notified details relating to that establishment, it must inform us of the changes, in accordance with the requirements set out in the respective directive under which activities are being carried out.

## 8. Customer satisfaction

### Customer Satisfaction [CS2.1 & CS2.2]

We offer our customers a post call survey administered by InsightNow in order to measure the performance of our Customer Contact Centre. The standards below relate to our latest customer satisfaction score.

We are in the process of reviewing our current service standards in line with our commitment to improve our customer service. The next set of service standards will be published in Quarter 2 2014.

The results below cover the customer satisfaction index for enquiries made to the Customer Contact Centre between 1st October and 31st March 2013.

ID	Standard	Target	January 2014 to March 2014 Performance	
			%	
CS2.1	Customer satisfaction index for enquiries made to the Customer Contact Centre

## Methodology

A sample of stakeholders who have dealt with the Customer Contact Centre (consumers or firms) are offered the chance to complete a post call survey where a series of questions are asked and the answers collated by InsightNow. Those who choose to participate in the survey complete a brief telephone questionnaire, the results of which produce an overall customer satisfaction rating.

### Methodology background

Here, we explain how we get customer satisfaction performance results.

#### Research methodology

Our Contact Centre customer satisfaction research is currently carried out by InsightNow, an independent company with in-depth knowledge in customer satisfaction and experience management.

To gather the results we offer our customers an opportunity to complete a short series of questions in which they are given the choice to rate their experience with the FCA. As part of this we offer a facility where by our customer can leave verbatim comments to describe and explain either why they had a positive, neutral or negative experience. This information is then collated via InsightNow and analysed reviewing the different services that our telephony teams offer. This also allows us to understand any trends that are affecting our customer experience. The overall satisfaction rating is derived from the question in the survey asking customers to rate how satisfied they were with their interaction with the FCA.

InsightNow also analyse the results and provide a quarterly detailed report outlining key drivers of satisfaction. This report highlights any trends, areas of strength and areas of concern which then allows us to focus on any issues that would benefit from improvement.

#### Statistical methodology

An overall customer satisfaction score is generated using a specific question in the survey. As part of the survey our customers are asked to rate their overall satisfaction. This question is a five scale rating system. Once answered this allows us to generate a percentage score for the question which we separate for our firm and consumer experience. We also ask other questions and gather information which allows us to monitor, track and review other drivers of customer satisfaction. These results are used internally to affect change and improvement in the customer's experience.
